Dave Windle : Panavia Tornado: Strike, Anti-ship, Air Superiority, Air Defence, Reconnaissance and Electronic Warfare Fighter-bomber (Profiles of Flight) before purchasing it in order to gage whether or not it would be worth my time, and all praised Panavia Tornado: Strike, Anti-ship, Air Superiority, Air Defence, Reconnaissance and Electronic Warfare Fighter-bomber (Profiles of Flight):

The Tornado has been the backbone of the RAF within its many different theaters of operation. The aircraft started as a European venture between Germany, Italy and the UK, based on the original swing-wing technology invented by Barnes-Wallis. It has also been successfully exported to several Middle-Eastern air forces. It is likely to remain in service for several years to come. This book contains the world famous color profiles created by Dave Windle of the type in different operational modes, configurations and color schemes. Martin Bowman has written detailed

descriptions and photographs to create the perfect enthusiasts reference.
