Wasn't thrilled with the artist take on some of the breeds , but I am into realism . It was not for me .... But that doesn't mean if has caught your attention you shouldn't buy it .3 of 3 people found the following review helpful. Cute crafts and adorable dogswhat could be more irresistible? From a Golden Retriever and French Bulldog to the beloved mutt, these 35 paper pups are appealing and fun to create. They're made using kirigami, an art similar to origami: just photocopy the full-size templates and follow the simple steps to transform a flat shape into a dimensional animal! In addition to the dogs, accessories include a fire hydrant, doghouse, and a collection of collars to adorn your paper pet.

Hayakawa (Kirigami Menagerie) has been an origami enthusiast since childhood, and his second book focuses on dogs made out of folded card stock. The introduction explains the basics of cutting and folding; specific directions, as well as illustrations of key steps and a full-color photograph of the finished piece, are included with the information on creating each dog. Rather than starting with a full sheet of origami or office paper, Hayakawa recommends photocopying the reproducible template for the dog of your choice onto card stock, then following the cutting and folding directions for the specific animal . . . the results are surprisingly realistic . . . origami enthusiasts can amaze their friends with their ability to create everything from a mutt to a poodle.
