Thomas Dale Cowan, Jack Maguire : Spas Hot Tubs, Saunas Home Gyms: Award-Winning Design Ideas, Step-by-Step Installation Projects, Water Care Equipment (Creative Homeowner Press) before purchasing it in order to gage whether or not it would be worth my time, and all praised Spas Hot Tubs, Saunas Home Gyms: Award-Winning Design Ideas, Step-by-Step Installation Projects, Water Care Equipment (Creative Homeowner Press):

1 of 1 people found the following review helpful. not terribly informative, but nice picturesBy Michael HurDI bought the book for construction info for saunas. It was not useful for this at all. It could be handy to get ideas for projects

based on the pictures.1 of 2 people found the following review helpful. Just dreamingBy happy in IdahoWe like to dream about ways to improve our indoor and outdoor environment, and this book gives lots of ideas with photos and illustrations as to what goes into a project.2 of 2 people found the following review helpful. If you want to build your own spa, this book will helpBy A. SchaeferOlder book could use an updating, but it's the only text I found in several years of looking that actually tells you how to design and build your own spa. Jets, pumps, filters--all are covered, and there are supporting photos and illustrations to make everything pretty clear. Since I am looking forward to building a spa designed for my own--not the off-the-shelf--needs, I was very happy to find this book.

You'll find step-by-step instructions in this book for installing a spa, hot tub, sauna or exercise room. Includes testing for pH and calcium levels, sanitizing the water, and making repairs. More than 300 drawings and photographs help illustrate the projects.
