Steve Dobbs : The Oklahoma Lawn Guide: Attaining and Maintaining the Lawn You Want (Guide to Midwest and Southern Lawns) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Oklahoma Lawn Guide: Attaining and Maintaining the Lawn You Want (Guide to Midwest and Southern Lawns):

1 of 1 people found the following review helpful. Nice starting point. By T. Welch Having moved from North Texas across the Red River to South Central Oklahoma just west of US 75 on the north side of Lake Texoma, I needed a

guide to plan some landscaping. I like that the exact geographical and climatic region is clearly identified in this guide. It has a good starting point feel to it that let's me plan intelligently to put in a virgin turf. It has detailed descriptions with turf options.

The Lawn Guide Series takes the mystery out of lawn care and maintenance. The book describes how to properly plant, fertilize and water as well as recommendations on how to address the inevitable lawn problems.

About the Author Steve Dobbs is an award-winning horticulturist, garden writer, and lecturer. Since his graduation from Oklahoma State University and the University of Arkansas in horticulture, he has worked in the retail and wholesale trade, and in landscape design, installation, and maintenance, as well as in education as an Extension Horticulturist in both Oklahoma and Florida. He and his wife, Jo Alice, own and operate Morning Star Farms new Vian in eastern Oklahoma.
