Many people do not mind this but I like a more blended pattern. I was also disappointed that Australia was the only country/continent that had a nice large pattern of the border of the country with many pictures of iconic things from that country. I was hoping they would have done that with Europe, Africa, N America, S America, and Asia as well. Still looking for a pattern book that does.0 of 0 people found the following review helpful. Five StarsBy Lisa JurisI love the designs they put in for different time periods in history.0 of 0 people found the

following review helpful. Great patternsBy Ronafish79Such a cute book, lots of things to stitch and see. Maybe me add a couple of places I would like to visit to my bucket list.

Capture in cross stitch the people, landscapes, sights, classic styles and evocative patterns of the world.. Over 1,000 motifs range from London's Big Ben to Sydney's opera house, the lotus flower of the Orient to the big cats of Africa.. Every continent is captured in a colourful and detailed picture together with stitch-off-the page samplers.. Speedy keepsake projects such as cards and journal covers allow you to share your cross-stitch travels with friends and family.
